Me Lets start the meeting.

jwade16 Is there a link?

Me Let's meet up for a video call.

Video call ended Watch Recording

The call recording is ready and will be available for the next 30 days.
Duration: 27 minutes

Did something happen on the call? If you have concerns, [report the incident](#).

Me <https://fiverrzoom.zoom.us/u/085335400415?pwd=AugHPxwkd793u0ew6hThorJvZ9011#success>
Please join the meeting.

Me Here's your custom offer

G Me

Mailchimp POST endpoint OR

- Resend API OR
- Supabase table

 (Use whichever is simplest for you)

Email storage must occur even if the user does not buy anything.

3. Save Score + Answers (optional, but preferred)

Save the following into a database:

- Email
- Score
- Questionnaire answers
- Timestamp

Use:

- Supabase (preferred)
- Airtable
- Firebase

 (whichever you're experienced with)

4. Protect Paid Content

The Full Report page must:

- Only load after successful payment
- Be inaccessible by direct URL

You can use:

- A query parameter signed by Stripe
- A temporary Stripe session check
- A backend route that validates paid customers

Choose the simplest secure method.

5. (Optional) Admin Dashboard

A private admin-only page:

- Table of all leads
- Table of all scores
- CSV export
- Single login (hard-coded key or password is fine)

6. Deployment

Deploy the finished project to:

- Vercel (preferred)

Deliverables:

- Working production URL
- GitHub repository
- README with instructions

Success Criteria

- Payments work
- Emails are collected and stored
- Database entries save properly
- Calendly redirects after payment
- Full Report page loaded behind payment
- App works on mobile
- No console errors
- Deployed and ready for customers

What I Will Provide

- Working code from my current MVP
- Stripe payment links
- Calendly link
- Email provider credentials (Mailchimp, etc)

This message relates to:

I will be full stack developer, front end web developer, full stack website development

jwade16 Can you do this?

Me Hello there,

Thank you so much for reaching out to me. Yes I can do this for you.

Please allow me a couple of minutes to review everything.

Looking forward to working with you.

Best regards,
Ibrahim

Me

Thank you for sharing the details of your P-ay Power Score MVP! I've reviewed your requirements carefully, and I can implement the following:

- Stripe payment integration for Full Report (\$39) and Strategy Session (\$197)
- Secure getting of paid content
- Em-all capture and storage (Mailchimp / Resend)
- Optional database storage of scores and answers
- Optional admin dashboard for leads and scores
- Deployment to Vercel

I've prepared a detailed quotation outlining the full scope, timeline, cost, and deliverables. You can view it here:

Upon approval, I can start immediately and ensure the system is fully functional, secure, and ready for customers.

Looking forward to your feedback.

jwade16

This looks good but want to make sure you can do this...the code is already written but need somewhere to host it as I mentioned

Nov 22, 7:04 AM

jwade16

This would be what the final state will look like

Nov 22, 7:04 AM

jwade16

1 file

1687830056-7_-(20.54 MB)

Nov 22, 7:04 AM

jwade16

Making sure I am clear on the deliverable

Nov 22, 7:05 AM

jwade16

Also, do I need to have a business website already? So that people can go there to get their score? Or is that part of what you would be building?

Nov 22, 7:05 AM

Me

Can we schedule a quick Fiverr Zoom meeting to discuss everything in detail?

Nov 22, 7:09 AM

Me

Hello there,

Nov 22, 8:47 AM

Thank you for sharing your video file. I have reviewed it carefully and everything shown in the video is exactly what I can deliver. I can turn your MVP into a fully functional, polished app with all the required features working smoothly. I do have a few questions to clarify, just to make sure we are completely aligned.

It would be great if we could schedule a short Fiverr Zoom meeting to discuss the details and ensure we're on the same path.

Looking forward to speaking with you.

Regards,

jwade16

Ok thanks. What day and time works for you?

Nov 22, 7:21 PM

Me

We can do this meeting now. Are you free now?

Nov 22, 7:23 PM

jwade16

I am free now

Nov 22, 9:57 PM

Me

Lets start the meeting.

Nov 22, 9:58 PM

jwade16

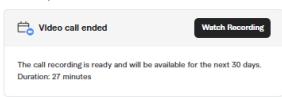

Is there a link?

Nov 22, 9:59 PM

Me

Let's meet up for a video call.

Nov 22, 9:59 PM

The call recording is ready and will be available for the next 30 days.

Duration: 27 minutes

Did something happen on the call? If you have concerns, report the incident

Nov 22, 10:00 PM

<https://fiverroom.zoom.us/j/8633540045?pwd=AqHlPwxsD793sdewBhTho3v2z011#success>

Nov 22, 10:00 PM

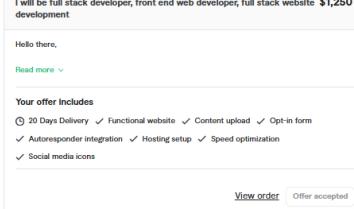

Please join the meeting.

Nov 22, 10:06 PM

Me

Here's your custom offer

Nov 22, 10:06 PM

Me

Thank you so much for your confirmation and joining the meeting.

Nov 22, 10:10 PM

Please accept the offer from your end.

I'm waiting for you to start the project.

Kind Regards,
Ibrahim

Nov 24, 5:34 PM

Me

Hello there,

Nov 24, 5:34 PM

I hope you are doing well.

Please accept the offer from your end. I'm waiting for you to start the project.

Kind Regards,
Ibrahim

Nov 25, 12:03 PM

Me

Hey, are you there?

Nov 25, 12:03 PM

Me

Hello.

Nov 28, 10:09 AM

I just wanted to check if this project is still available and reserved for me, or if you have assigned it to someone else.

Looking forward to your clarification so we can proceed.

Best regards,
Ibrahim

Nov 28, 3:27 PM

jwade16

Still available. Will send payment tomorrow so we can begin

Nov 28, 3:31 PM

Me

Thank you so much for the update. Once you accept the offer tomorrow, I'll start working on it right away.

Nov 28, 3:31 PM

jwade16

One more question. The Pay Power Score is a big part of the model and how this is calculated is important. As users sign up and share data, the score should get more accurate. Are you able to factor this in so as people enter real data, the score gets better?

Nov 28, 4:27 PM

There are also free websites that provide public salary data for jobs that we can also pull in for the MVP so that the pay power score is more accurate on day one.

Nov 28, 4:27 PM

jwade16

Thank you for your response.

Nov 28, 4:27 PM

free/nupic data sources (pare to use)
1. Government Data (NOES Safe)
Bureau of Labor Statistics (BLS)
• Free API: <https://www.bls.gov/webapi/>
• Occupational Employment and Wage Statistics (OEWS)
• Covers 800+ occupations across all states/metro areas

jwade16 Are you able to factor all of this in as you build? Just confirming before I send payment

Nov 28, 4:28 PM

Me Yes, I can handle this completely

Nov 28, 4:33 PM

I can make the Pay Power Score improve over time using real user submissions, and I can also integrate the free BLS API to pull accurate public salary data from day one. The system will combine both data sources so the score becomes smarter and more accurate as more users join.

You can proceed with the payment whenever you're ready. I can start right away.

Nov 29, 11:05 PM

Me Hello there,

Hope you're doing well. I just wanted to check in to see if we're getting started today as you mentioned. I'm fully prepared to begin as soon as the offer is accepted.

Let me know your status, and I'll take it from there.

Best regards,
Ibrahim

jwade16

Hello, I sent the payment. Excited to work with you. Will send you my stripe and Calendly and domain info

Nov 30, 5:07 AM

Me

Thank you so much for placing the order. I've received the confirmation. I'm excited to get started on your project as well.

Nov 30, 5:10 AM

Please send over the following whenever you're ready:

- Stripe details (payment links or API keys)
- Calendly link
- Domain/hosting login
- Any other assets or credentials you want me to use

As soon as I have those, I'll begin setting everything up right away and keep you updated at each step.

Best regards

jwade16

Can you send me your email address so I can give you developer access in stripe?

Nov 30, 7:33 AM

Me

I cannot share or communicate any personal information outside of Fiverr, as it could put my profile at risk. Fiverr is my main source of income, so I hope you understand my position. However, you can grant me access by following the instructions I will provide you with for success.

Nov 30, 7:43 AM

jwade16

Ok perfect! No problem at all! Thanks again

Nov 30, 7:45 AM

Me

You are most welcome. Please follow the instruction sheet :
https://docs.google.com/document/d/1BRISjhKNUVv4FV4aFGEIWSdMr42VqOB04DSA_Gw/edit?usp=sharing

Nov 30, 7:46 AM

jwade16

Thanks will get everything over to you today so we can get started

Nov 30, 7:37 PM

Me

Sure. Thank you for the update, that sounds great.

Nov 30, 7:39 PM

jwade16

I followed your instructions above

Dec 01, 9:07 AM

jwade16

Also, the domain I own is below

Dec 01, 9:08 AM

Okay thank you.

Dec 03, 2:39 AM

Me

Hello there,

Dec 03, 9:10 AM

I hope you're doing well.

I've carefully reviewed your project proposal, and I'm ready to begin working on your project. Before I start, I'd like to clarify a few points to ensure everything is fully clear and there's no confusion moving forward.

I'm available for a quick discussion between 12 AM to 6 AM (Bangladesh Time). Please let me know a suitable time for you, and we can go over the details together.

Looking forward to your response.

Best regards,

Dec 03, 5:41 AM

jwade16

Can you send your questions here so I can respond faster?

Dec 03, 5:51 AM

jwade16

Here is the code

Dec 03, 4:00 AM

Me

I haven't gotten any code yet. Can you please check again on your end?

Dec 03, 4:38 AM

jwade16

1file

Dec 03, 4:38 AM

jwade16

Does that open?

Dec 03, 4:39 AM

Me

Yes, let me review the code from my end.

Dec 03, 4:40 AM

jwade16

Ok thanks!

Dec 03, 4:40 AM

Me

You are most welcome.

Dec 03, 4:40 AM

Me

Hello there,

Dec 03, 4:57 AM

I've reviewed the code you provided, but I still need to clarify a few points before I can proceed smoothly with the development. Some of these concerns are a bit difficult to explain over text, so I believe a quick meeting would be the most efficient way for us to align properly.

Please let me know when you're available for a meeting. I'm available between 12 AM to 6 AM (Bangladesh Time) for a quick discussion.

Once we clear things from both ends and fully understand the remaining points, we can move forward with your project quickly and efficiently.

Best regards,

jwade16
Thanks

jwade16
12AM tomorrow work?

Me
That sounds good; I am available this time.

Me
Are we good to start the Fiverr Zoom meeting?

jwade16
Yes

jwade16
Can you talk now?

Me
Can I start in 5 minutes?

Me

[BLS.txt \(53 bytes\)](#)

jwade16
Hi, here is the BLS Public Data API info you need to connect to the pay power score:

API Key:
In the attachment above

API Endpoint:
<https://api.bls.gov/publicAPI/v2/timeseries/data>

Documentation:
https://www.bls.gov/developers/api_signature.htm
<https://www.bls.gov/developers/home.htm>

Please set this up by storing the API key in an environment variable (not in the code).

Me
Thank you so much for sharing all of this with me.

Let me check it from my end.

Me
Hello there,

Hope you are doing well.

I wanted to provide you with a quick update on the project's progress. At the moment, I'm focusing on reviewing the codebase of you to know how things are working. This includes exploring the overall structure, defining the workflow, and outlining how each part of the system will be implemented.

I'm also working on the UI concepts to determine how to improve, ensuring a smooth and intuitive experience for users. Hopefully I can provide you with a visual update within the next 48 hours.

Thank you for your collaboration and continued support.
Best regards,

jwade16
Awesome

jwade16
Thanks

jwade16
Also sharing the templates we discussed. So once they get the score. If they unlock full report, based on their score it provides them a template.

jwade16
1 file

jwade16
Code above, let me know your thoughts.

Me
Thank you for sharing it. After reviewing it, I'll inform you.

Me
Hello there,

I hope you are doing well.

I have reviewed the code you provided and, following your guidance, I am making the codebase fully professional while keeping the UI the same. I have made a few modifications, and I am sharing the live link for your reference: <https://wadeitsevered.app/>

Pay Power Score calculation document is currently being reviewed by the backend developer, and based on that, the work is progressing. At this stage, I will need a backend API. You suppose to give an API that is free, you told me before. It will be great if you provide me that.

The UI design work is ongoing, and if you have any concerns or feedback regarding the design, please let me know.

Best regards,

jwade16
Thanks

jwade16
I shared the Fred API above

jwade16
7704ca7b20e14ac2b7a12d4ecd32b44
[Translate to English](#)

jwade16
Let me know if you can see the attachment above

jwade16
Hi, here is the BLS Public Data API info you need to connect to the pay power score:

API Key:

<https://www.bls.gov/developers/home.htm>

Please set this up by storing the API key in an environment variable (not in the code).

jwade16

Also can we make the UI colors match the logo colors...and change to COMPanion TM...just like it is on the logo?

Dec 08, 9:56 AM

jwade16

1 File

↓ CE39A890- (336.29 KB)

Dec 08, 9:56 AM

jwade16

Thanks so much!

Dec 08, 9:56 AM

Me

I'll surely let you know after checking all this from my side.

Dec 08, 9:57 AM

Me

Hello there,

Dec 09, 6:46 AM

I hope you are doing well.

As per our last conversation, you mentioned that you wanted the website colors to match your logo. I have updated the website colors accordingly, and you can check the changes on the live link here:
<https://jwade16.veralapp.com>

Thank you for providing the API and API key. My backend developer has already started working on the backend integration, and I hope to update you in the next progress report.

Best regards,

jwade16

This looks great so far!

Dec 10, 11:02 AM

jwade16

Thanks for making the update!!

Dec 10, 11:02 AM

Me

You're most welcome.

Dec 10, 11:03 AM

Me

Hello there,

Dec 11, 5:51 AM

I hope this message finds you well.

Following my previous update, the backend developer has been working on the integration work, and I am now in the process of integrating these elements with the frontend. I anticipate being able to present a significant update in my next update.

Thank you for your continued support.

Thank you,
Best Regards,

jwade16

Great, thank you!

Dec 11, 9:07 AM

Me

You're most welcome

Dec 11, 9:13 AM

Me

Hello there,

Dec 14, 8:21 AM

I hope you are doing well.

As mentioned in the previous update, the backend work for the Power Assessment has been completed. The data is now being saved properly, and the percentage calculations are working as expected. I have already implemented these changes on the frontend, and you can check them on the demo site here:

<https://jwade16.veralapp.com/>

At the moment, the backend team is working on the Stripe payment integration. Once this is completed, users will be able to view the full report after making a payment.

Additionally, for the "book Strategy Session" feature, we will need your Calendly link. If you could please share it, that would be very helpful.

I will also require a few items from your end. I have shared a document link where you can review the detailed requirements along with the guidelines to obtain them.

Please go through the document at your convenience:

https://docs.google.com/document/d/1BqTEXxmrjDQaIy9emjeb8WBo_rdm_FHEvukCxDQ/edit?ts=10

Thank you for your cooperation and collaboration.

Best regards,

jwade16

Thanks so much. I will get these items to you in the next day or two.

Dec 14, 9:58 PM

Me

Thank you for the update; that sounds perfect.

Dec 14, 10:06 PM

Once you share the remaining items, especially the Calendly link and any Stripe-related details, I'll proceed immediately with completing the payment flow and finalizing the locked Full Report access.

In the meantime, I'll continue preparing everything on my end so we can move quickly as soon as those details are received. I'll keep you updated with the next progress milestone.

Looking forward to your message.

Dec 15, 6:54 AM

jwade16

Thanks and so far everything looks GREAT!

Dec 15, 7:02 AM

Me

You are most welcome.

Dec 15, 7:10 AM

Me

Hello there,

Dec 16, 6:40 AM

It's good to hear from you. However, after reviewing the document, I noticed that the required credentials have not been submitted yet. If you could please share all the necessary information, it would make it easier for me to continue the work smoothly.

Best regards.

Me

Hello there,

Dec 16, 6:40 AM

I hope you are doing well.

I am currently working on your website, where users will be able to view the Full Report after completing the payment. However, the scoring details document you shared is not fully clear to my backend developer, and it has been a bit challenging to understand the scoring logic accurately.

If possible, could you please provide the scoring document in a more clear and detailed format - not only in JSON, but with a direct explanation of the logic as well? This would help our backend developer implement it correctly. Or we can schedule a short meeting to discuss it in details.

Additionally, to proceed further, I need the following from your side:

- Your Calendly scheduling link (without this, I won't be able to redirect users to your Calendly profile)

- Some required credentials, such as:
 - Calendly
 - Hosting access
 - MongoDB
 - Stripe
 - Google App Pass-word

Please review the document at your convenience and provide the requested details:
https://docs.google.com/document/d/1BqTEXxmrjDQaIy9emjeb8WBo_rdm_FHEvukCxDQ/edit

Once we receive these, we can move forward smoothly.

Best regards,

jwade16

Sending shortly

jwade16

Sending everything to you in about 30 minutes

Me

Yeah, sure.

jwade16

Calendly link below:

jwade16

<https://calendly.com/companionsavy/book-a-consultation>

Me

Thank you so much for sharing the link. Let me check from my end and I'll integrate those very soon.

jwade16

Also, can you explain why a VPS (Hostinger KVM2) is required instead of Vercel/Netlify/Render? What specific technical requirement makes this necessary?

jwade16

Also on Stripe. Happy to set up webhooks. For security, I won't share the live secret key directly. I can either add you as a Stripe user or I'll add the API key and webhook secret myself as environment variables, does this work?

jwade16

And lastly, can you list exactly what data will be stored in MongoDB vs what will live in Stripe/Calendly? Also, why MongoDB over a managed option like Supabase?

jwade16

Thanks so much

jwade16

For your question on the score and how it works see below explanation for the developer to have more details...

Me

Hey jwade,

Totally fair questions, and I'm glad you asked. Let me explain this in a simple, straightforward way.

About VPS vs. Vercel/Netlify

You're right; for most modern apps, Vercel is more than enough, and that's exactly why we're already using it for the frontend.

The only reason I mentioned a VPS earlier is because of future flexibility, not because Vercel can't handle the MVP.

Here's the honest breakdown:

Dec 16, 7:29 AM

Dec 16, 7:29 AM

Dec 16, 7:33 AM

Dec 16, 7:34 AM

Dec 16, 7:43 AM

Dec 16, 7:45 AM

Dec 16, 7:54 AM
